BJORN CLAESSENS

SENIOR DATA ENGINEER

Senior Data Engineer specializing in distributed systems and real-time data pipelines. Passionate about building scalable data platforms that power enterprise decision-making.

PROFESSIONAL EXPERIENCE

Freelance Data Engineer @ ASML

04/2023 - PRESENT

Data engineering for complex machine data processing.

PySpark

Python

Azure

Snowflake

Databricks

Kubernetes

Azure DevOps

Linux

Context

Eindhoven, NL - Freelance role within ASML's data migration art.

Tasks

- Complex machine data parsing using medallion architecture.
- Data engineering for real-time and batch-based solutions.

Environment

PySpark / Python / Scala / AWS / Snowflake / Kubernetes / Azure DevOps / Linux

Senior Data Engineer / Tech Lead @ Nike

10/2019 - 04/2023

Technical lead for a data squad building scalable, reusable data pipelines.

PySpark

Hadoop

Airflow

AWS

Python

Linux

Context

Laakdal, Belgium - Senior Data Engineer and Tech Lead for a data squad within Nike.

Tasks

- Built scalable and reusable data pipelines to provide foundational data aligned to a global data model.
- Core commit to an inner-sourced ETL framework built on PySpark, infrastructure as code, and metadata-driven patterns.
- Defined and upheld squad best practices as technical lead.
- Ran proofs of concept for new technology stacks and solution patterns.
- Contributed to communities of practice and architectural decision making.
- Drove cross-team data integrations.

Environment

PySpark / Kafka / Hadoop / Airflow / Azure / Python / Linux

Big Data Consultant @ Dynapps N.V. (client Johnson & Johnson)**04/2016 - 10/2019**

Consultancy for Big Data projects - ETL at scale (batch and NRT).

Kafka**Hadoop****Scala****Python****Linux****Context**

Geel / Beerse, Belgium - Consulting role at Dynapps working with Johnson & Johnson on large-scale Big Data projects.

Tasks

- Built ETL at scale across batch and near-real-time workloads.
- Worked on machine learning pilots.
- Supported AB deployment of datasets.
- Contributed to cost management across the platform.

Environment

Hadoop / Python / Linux

Big Data Consultant @ Cronos**07/2014 - 03/2016**

Development, Operations & DevOps consultancy for Big Data projects.

Hadoop**Cloudera****Python****Apache Spark****Titan Distributed Graph****HBase****Solr****MapReduce****Java****Linux****Context**

Kontich, Belgium - Consultancy covering the full stack of Big Data project delivery. Also developed a B2B content asset management service for Belga providing a searchable, aggregated source of live news feeds, public domain media, and archives.

Tasks

- Handled Cloudera cluster deployment and administration.
- Delivered DevOps support for Big Data infrastructure.

Environment

Hadoop / Cloudera / Apache Spark / MapReduce / Java / Linux

Cloudera Hadoop Cluster Administrator @ [Cronos] Telenet**10/2014 - 03/2016**

Administrator of Cloudera Hadoop cluster for Telenet, Belgium's largest cable broadband provider.

Cloudera Hadoop**Puppet****HP ILO****Linux****Context**

Belgium - Managed enterprise Hadoop infrastructure for a major telecom provider.

Environment

Cloudera Hadoop / Puppet / Linux

First Line Service Desk Agent @ Hewlett Packard (HP)**07/2010 - 07/2011**

First line IT support and service desk operations.

IT Support**Role**

First line IT support and service desk operations.

EDUCATION

Bachelor in Applied Informatics (Cum Laude) @ Thomas More Kempen**2011 - 2014**

Specialty: Internship in Beijing, China

Bachelor in Teaching - IT and Biology @ Thomas More Kempen**2007 - 2010**
